PONY CLUB TASMANIA

PRINCE PHILIP MOUNTED GAMES FOR JUNIOR AND OPEN DIVISIONS

NOTE

The games rules contained in this book are team games only.

Where the word 'horse' is used, this also includes 'pony' and vice versa.

OBJECTIVES

The Prince Philip Mounted Games provides the Pony Club with a competition requiring courage, determination and all-round riding ability on the part of the rider, and careful and systematic training of the pony.

Its objective is to encourage a higher standard of riding throughout Pony Club and to stimulate among the future generation, a greater interest in riding as a sport and recreation.

CODES OF BEHAVIOUR AND WELFARE OF THE HORSE

There is a Code of Behaviour for Administrators, Officials, Parents, Spectators, Coaches, the Media and for Riders contained in the Member Protection Policy in Section I of the PCT Handbook on the PCT website. Everyone participating should be familiar with these as well as the Government initiative "PLAY BY THE RULES".

Abuse of the bit will be carefully monitored and any infringement will constitute elimination from the game in which it occurred.

1 COMPETITION FORMAT

- The competition consists of fifteen (15) games selected by the State championship host club/zone from the list contained herein, and approved by the State Council.
- Refer to the PCT Website or the State Secretary to view current games in use.
- The games will be played in accordance with, the attached Rules which are taken from the current International Rules.
- The competition will be run in two stages and two age divisions: Senior and Junior.
 - Stage 1** Zone Qualifying Event Teams are required to take part in a zone qualifying event. The first and second placegetters from each age group shall move forward to Stage 2.
 - Stage 2** State Championships. These are organised on behalf of the Association with a host club/zone, rotating annually between the three zones on the last Sunday in May.
- The venue of the final to be agreed upon by the Zone Committee and approved by PCT.

2 AGE DIVISIONS

- **Senior** - Rider under 25 on the 1st January in the year of the competition.
- **Junior** - Rider under 16 years on the 1st January in the year of the competition.
- Members under 16 years may compete in the Senior Division.
- Should a rider under 16 years compete in the Senior Division, then they are ineligible to ride in the Junior Division in this competition.

3 TEAMS

- Five riders represent each club, of which four participate mounted in each game. All riders must compete mounted in twelve games.
- Clubs may enter as many teams as they wish in each age group, however the zone has the right to restrict the number of teams competing to a manageable level.
- All clubs and riders participating shall be financial members of PCT.
- One reserve rider and/or horse may be nominated on the entry form.
- The pony and rider combination must be rally qualified as per Section 2.7.2c. These qualifications must be obtained prior to the rider competing in their Zone Qualifier.
- Members of a team may not be changed between the Zone Qualifier and the Championship except in the event of illness or unsoundness.
- No rider can compete for more than one Club in any one year, and no pony can compete for more than one Club in any stage of the competition.
- Zones may run division 2 teams in any age group/s for less experienced riders.

- **Composite teams** may be formed from two clubs. In this case:
 - No rider is to be disadvantaged by the decision of clubs to form a composite team;
 - Applications for composite teams must be approved by the Zone prior to close of entry of the zone competition;
 - The zone will assess the merit of the application and notify the clubs of the outcome;
 - Composite teams which qualify may participate in the championship event.
- **Substitution:** After the closing date for declarations, no rider or horse entered for the competition may be changed, except in the event of illness or unsoundness, when a certificate signed by the D.C. shall be produced before the reserve may compete.
 - If there is an injury or illness to horse or rider during the games then a meeting of all DCs and the Judges shall be held.
 - If the majority is agreed that the injury or illness is legitimate then a reserve rider and/or horse for that club may be put in the team to compete and have the same status as the replaced rider.

- These will go into a draw - the one drawn being the one to be used.
- Any four of the team riders may take part, not necessarily those that took part originally.

GENERAL RULES APPLICABLE TO ALL GAMES

- 34 No items of equipment are to be held in the mouth.
- 35 Except when the rules allow riders to dismount, they must remain mounted (facing forward, legs astride the saddle, or back when saddles are not used).
- 36 The rider may pass the first post on either the right or left. Thereafter they weave alternately to the right and left of successive posts.
The following faults will incur elimination of the team from the event:
Passing the wrong side of a post unless corrected.
Failure by the rider concerned to replace a post they have knocked down.
- 37 At the handover, only the rider next to start is allowed to take up position behind the line. This rider must go next and may not be replaced by one of the others for any reason, or the team will be eliminated.
The remainder of the team must remain behind the six (6) metre line.
- 38 All handovers/changeovers from one rider to the next must take place behind the start/changeover line but not necessarily between this line and the six (6) metre line.
The whole of the next (outgoing) rider and their pony - all 4 hooves - must be behind the line until the previous (incoming) rider and their pony have crossed it, and until they have handed over the baton or other article.
Should the next (outgoing) rider cross the line too soon, the team will be eliminated unless they return and correct the error.
- 39 At a handover, in the interests of safety, the incoming rider only may pick up a dropped object and hand it over mounted or dismounted while not infringing general rule 38 above.
No rider may help another unless they are both involved in a handover.
- 40 Should a rider drop an article that they have to carry, hand over or put into or take out of a container or pick up, they may then place it where it has to be put whilst dismounted, after which they must remount to resume the event except for the Pony Club Race for which they must remount first.
- 41 When correcting an error, dismounted, the rider must continue to hold the pony by the reins throughout. The reins must at all times remain over the horse's neck.
- 42 A rider who commits an error during an event may return to correct it, even after crossing the handover or finishing line, provided they have not left the arena or the Judge has not declared the race to be over. Should they go back, the rider may not hand over or finish until they again cross the line after correcting the error.
- 43 Should a rider knock over a container, table, post, etc. they must immediately set it up again and replace all the articles that should be in or on it except the one being collected which need not be replaced. They can dismount and do this by hand or remain mounted. The penalty for infringement is elimination of the team from the game.
- 44 A team may be eliminated for not correcting mistakes made during an event.
A team may be disqualified for serious breaches of the rules.
- 45 If a rider or pony interferes with another team during an event, the offending team may be eliminated or in serious cases, disqualified at the discretion of the Chief Judge.
- 46 Should a rider fall off and lose their pony, and wish to resume the race, they must do so at the point of the fall.

- 47 If a pony runs loose away from its rider, the team may be eliminated from the event at the discretion of the Chief Judge, (usually depending on interference with other teams or length of time to resume the event).
Leaving the arena is elimination.
- 48 No person may enter the arena to catch a loose pony; only the Lane Stewards of the team involved, the team or the Arena Party, may help, and then only when the pony has left the "play area". The team may then continue with the race.
The Play Area is that area between the start line, change over line and the defined width of the area. Once the pony and rider are reunited, they may continue the race from the point of infringement.
- 49 Races will not be re-run when a team upsets the equipment of another team, but the offending team will be eliminated from that race.
The nearest Line Steward of the team upset should quickly set this up again, if this is possible.
- 50 Riders must remain in their place until all teams have finished each event, leaving the arena as a team on instruction from the Chief Judge.
- 51 Rough or dangerous riding, striking the horse, deliberate interference, foul language (swearing), or unseemly behaviour, may be penalised by disqualification of the rider or the team from the event concerned, or from the whole competition, at the discretion of the Chief Judge.
- 52 There will be no objections or protests of any kind other than by officials appointed for the competition.
- 53 If for any reason an event cannot be run, it may either be replaced by the spare event or be declared void at the discretion of the Chief Judge.
- 54 If for any reason the Judge cannot decide one or more of the placings in an event, only the teams concerned must run the event again.
- 55 In the event of equality for the final placings, a Tie-Breaker game will be used to decide the placing.
- 56 No items of equipment are to be held in the mouth.

Nos.2, 3 & 4 will complete the course in the same way up and down the arena successively. No.4 must be carrying his ball on his racquet as he crosses the finishing line.

Should the ball be dropped, the rider must either pick it up, or collect another from the container on his team's centre post, and resume the course again from the point where the ball was dropped. The ball need not be placed on the racquet until this point is reached. Should the ball be dropped over the handover line, the rider may dismount and put the ball on the racquet of the next rider to go.

Directions

Nos.1 & 3 will be mounted at one end of the arena and Nos.2 & 4 at the other.

On the signal to start No.1, carrying the lance, will gallop to the end of the arena bursting a balloon on the way, then hand the lance to No.2. Nos.1 and 3 will be at the start end with Nos.2 and 4 at the changeover end. No.1 gallops to one of the posts, picks up the ring with the sword, continues and hands the sword complete with ring to No.2. Nos.2, 3 & 4 complete the game in the same way, each going up and down the arena in succession. No.4 must be carrying the sword with 4 rings on it as he crosses the finishing line.

At no time may the sword be grasped by the blade unless a ring is dropped. Should this happen, the rider MAY dismount and pick it up by hand, placing the ring onto the blade of the sword. He may hold the blade of the sword until remounted, after which the handle must be held and the rider must resume the race from the point where the fault occurred. Otherwise, the rings may not be touched by hand, and must be carried against the crosspiece of the sword.

If a sword is broken, the rider may continue, providing it is possible to complete the game correctly. There is no penalty should a post be knocked down.
